**Re: In the Matter of Petition of USTelecom for Forbearance Pursuant to
47 U.S.C. Section 160(c); WC Docket No. 18-141; Category 1**

Dear FCC,

Please allow small ISPs such as Sonic to compete in my local market. Without them providing fast fiber to my house, the alternatives from AT&T/Comcast are slower, more expensive, and do not provide me the same level of service and satisfaction as a consumer.

Our family depends on Sonic to provide the speed and service for all our online needs. Understand that AT&T's DSL offering in my neighborhood is a paltry 5mbps. Sonic currently provides me 1000mbps fiber for the same price! It would be a complete disaster for our family if that was taken away from us. I don't see AT&T or Comcast investing in fiber services to my home anytime soon.

We should be moving forward with competitive products that help consumers, not over-regulate and stifle choices that provide better service.
